

STATE OF CALIFORNIA  
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
STATE WATER RESOURCES CONTROL BOARD

**DIVISION OF WATER RIGHTS**

**License for Diversion and Use of Water**

APPLICATION 24804

PERMIT 17425

LICENSE **13788**

Page 1 of 5

**THIS IS TO CERTIFY, That**

Big Basin Water Company, Inc. and  
Forest Springs Improvement &  
Maintenance Association  
c/o Big Basin Water Company, Inc.  
P.O. Box 197  
Boulder Creek, CA 95006

have made proof as of **October 10, 2001, and February 26, 2003, (the dates of inspection)** to the satisfaction of the State Water Resources Control Board (State Water Board) of a right to the use of the waters of **(1)(2)(3)(4) 4 Unnamed Streams** in **Santa Cruz County**

tributary to **(1)(2) Jamison Creek thence (3)(4) Boulder Creek thence San Lorenzo River**

for the purpose of **Domestic and Fire Protection uses**

under Permit **17425** of the State Water Board; that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the State Water Board, and the permit terms; that the priority of this right dates from **April 30, 1975**; and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed **thirty seven hundredths (0.37) cubic foot per second by direct diversion and four and six tenths (4.6) acre-feet per annum by storage from January 1 to December 31 of each year. The total amount of water to be taken from the source (direct diversion plus collection to storage) shall not exceed 231 acre-feet per year. The total amount of water to be placed to beneficial use (direct diversion plus withdrawal from storage) shall not exceed 231 acre-feet per year.**

The maximum instantaneous rate of diversion to offstream storage shall not exceed 1.1 cubic feet per second.

The capacity of the reservoir covered by this license shall not exceed 4.6 acre-feet.

The equivalent of such continuous flow allowance for any 7-day period may be diverted in a shorter time provided there is no interference with other rights and instream beneficial uses and provided further that all terms or conditions protecting instream beneficial uses are observed.

(0000027)

**THE POINTS OF DIVERSION AND DIVERSION TO OFFSTREAM STORAGE OF SUCH WATERS ARE LOCATED:**

- (1) By California Coordinate System of 1983, Zone 3, North 1,880,608 feet and East 6,075,064 feet, being within NW¼ of SW¼ of Section 14, T9S, R3W, MDB&M.
- (2) By California Coordinate System of 1983, Zone 3, North 1,880,708 feet and East 6,075,364 feet, being within NW¼ of SW¼ of Section 14, T9S, R3W, MDB&M.
- (3) By California Coordinate System of 1983, Zone 3, North 1,877,608 feet and East 6,078,164 feet, being within SW¼ of NE¼ of Section 23, T9S, R3W, MDB&M.

**THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:**

- (4) By California Coordinate System of 1983, Zone 3, North 1,876,008 feet and East 6,079,064 feet, being within NE¼ of SE¼ of Section 23, T9S, R3W, MDB&M.

**THE POINT OF REDIVERSION AND PLACE OF OFFSTREAM STORAGE OF SUCH WATER IS LOCATED:**

- (5) Jamison Reservoir - By California Coordinate System of 1983, Zone 3, North 1,880,909 feet and East 6,075,804 feet, being within NW¼ of SW¼ of Section 14, T9S, R3W, MDB&M.

**A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:**

Domestic and Fire Protection uses within the boundaries of the Big Basin Water Company, Inc. and Forest Springs Improvement & Maintenance Association in Sections 2, 11, 12, 14, 15, 23, & 24, all within T9S, R3W, MDB&M, as shown on map on file with the State Water Board.

No water shall be diverted under this license until the licensee installs and maintains in-line flow meters, acceptable to the Division of Water Rights, that are capable of measuring the instantaneous and cumulative amounts of water placed to beneficial use. These meters are to be located at the water treatment plant outlet pipelines for the Big Basin Water Company, Inc. and Forest Springs Improvement & Maintenance Association.

Licensee shall install in-line flow meters, acceptable to the Division of Water Rights, that are capable of measuring the cumulative amounts of water placed to beneficial use from its alternate supply and amounts placed to beneficial use at the Galleon Heights subdivision located within Section 13, T9S, R3W, MDB&M. Licensee shall demonstrate that the amount of water diverted from its alternate supply equals or exceeds the amount of water placed to beneficial use at the Galleon Heights subdivision.

Licensee shall maintain a record of end-of-the-month meter readings and shall submit these monthly records with the triennial report of licensee, or whenever requested by the Division.

(0060800)  
(0090800)

During the season specified in this license, the total amount and rate of water diverted, stored, and used under this license and the licensee's claimed existing right for the place of use specified in this license shall not exceed the amount and rate of diversion, storage, and use, respectively, specified in this license. If the licensee's claimed existing right is quantified at some later date as a result of an adjudication or other legally binding proceeding, the amount and rate of diversion, storage, and use allowed under this license shall be the net of the face value of this license less the amounts of water available under the claimed existing right. Licensee shall forfeit all rights under this license if the licensee transfers all or any part of the claimed existing right for the place of use covered by this license to another place of use without the prior approval of the State Water Board.

Licensee shall take and use water under the existing right claimed by the licensee only in accordance with law.

(0000021)

---

*The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.*

*Reports shall be filed promptly by the licensee on the appropriate forms which will be provided for the purpose from time to time by the State Water Board.*

*Licensee shall allow representatives of the State Water Board and other parties, as may be authorized from time to time by the State Water Board, reasonable access to project works to determine compliance with the terms of this license.*

*Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.*

*The continuing authority of the State Water Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.*

*The continuing authority of the State Water Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.*

*The quantity of water diverted under this license is subject to modification by the State Water Board if, after notice to the licensee and an opportunity for hearing, the State Water Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the State Water Board finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.*

*This license does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain authorization for an incidental take prior to construction or operation of the project. Licensee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this license.*

*If construction or rehabilitation work is required for the diversion works covered by this license within the bed, channel, or bank of the affected water body, the licensee shall enter into a streambed or lake alteration agreement with the State Department of Fish and Game. Licensee shall submit a copy of the agreement, or waiver thereof, to the Division of Water Rights prior to commencement of work. Compliance with the terms and conditions of the agreement is the responsibility of the licensee.*

*This license is granted and the licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:*

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the State Water Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article (of the Water Code) and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
